

The Hill-Rom® technical training programs are product certification programs. Attendees will be capable of troubleshooting, conducting preventive maintenance and rendering repairs to Hill-Rom® products including:

Beds & Stretchers Technical Training	Lift Technical Training
Progressa® Bed	Viking® Lift Series
VersaCare® Med-Surg Bed	Golvo® Lift
CareAssist® ES Med-Surg Bed	Sabina® Sit-to-Stand Lift
Advanta™ 2 Med-Surg Bed	Uno™ Lift
TotalCare® Bed System	Liko® M220 / M230 Mobile Lift
Affinity® 4 Birthing Bed	LikoGuard® Overhead Lift
Compella™ Bariatric Bed	Likorall® Multirall™ Overhead Lifts components to the FreeSpan™ System
All Hill-Rom® Stretchers	
Centrella® Smart+Bed	

Surgical Products Technical Training	Stress, Resting & Monitoring Technical Training
TruSystem® 7000 OR Table	ELI 280
TruSystem® 7500 OR Table	ELI 350
TITAN® OR Table	ELI 380
TruLight® Surgical Lights TL3000/TL5000	ELI 150c & 250c (Available Upon Special Request)
iLED® 5 and iLED® 3 Surgical Light	Q-Stress 6 and TM55/65
iLED® 7 Surgical Light	Q-Stress 6 and TMX428
TruPort® Boom	Q-Tel RMS

WHO SHOULD ATTEND

Our training is designed for hospital personnel:

- Hospital Biomedical Engineers and/or Hospital Facilities/Maintenance Staffs.

COURSE OBJECTIVES

Upon completion, you will be able to return to your facility with the product knowledge and hands-on experience necessary to keep your patient care areas functioning at their required levels.

The courses offer these specific objectives:

- Hands-on knowledge of troubleshooting techniques.
- Preventive maintenance and safety inspection steps.
- Understanding of product features and benefits.
- Ability to quickly spot and correct user errors.
- Knowledge of product warranties, out-of-warranty exchange programs and parts ordering procedures.
- Theory of operation and component level replacement.

COURSE PREREQUISITES

Programs are designed for individuals responsible for troubleshooting, repair and maintenance/preventive maintenance of Hill-Rom® equipment. It is recommended that the student possess a basic knowledge of electronics, as well as have experience with electronics testing equipment.

CLASS FEES

Call for quote: 800.437.8935.

COURSE MATERIALS

All service manuals, in-service manuals, recommended spare parts lists, and student guides are provided. Testing includes problem diagnosis and/or a written exam.

CERTIFICATE

Upon completion of the class, each attendee will receive a certificate of completion indicating the attendee is trained to repair and maintain Hill-Rom® Beds, Welch Allyn® Cardiology Products, Trumpf Medical™ Products, or Liko® Lifts. In order to receive certificate, student must be present for the duration of the class. **NOTE: Certificates will have a 2-year validity period as long as employed by contracting facility. Refresher training may be required at that time.**

TRAINING LOCATION: BATESVILLE, IN

Hill-Rom's training facility is located in Batesville, IN and is centrally located between Cincinnati/Greater Northern KY Airport (CVG) and Indianapolis, Indiana Airport (IND). Students may choose to fly into either airport and drive to Batesville. (Note: Expect 1-3 hours of driving time depending on airport selected.) Address: Hill-Rom Training, 1 S Main St, Batesville, IN 47006

BATESVILLE, IN (Eastern Standard Timezone)

Bed & Stretchers	
Seminars:	8:00 am thru 4:30 pm
Trumpf Medical™ Surgical	
Product Seminars:	8:00 am thru 5:00 pm
Liko® Lift Seminars:	8:00 am thru 5:00 pm (Day 1) 8:00 am thru 3:00 pm (Day 2)
Welch Allyn® Cardiology	
Stress, Resting, Monitoring	1:00 pm thru 4:30pm (ELI280)
Seminars:	8:00 am thru 4:30pm

EXPENSE MANAGEMENT

Class attendees are responsible for all expenses. Please arrange flights, rental car, hotel, and manage food/beverage purchases per your facility/company's travel policy. You will need to rent a car; there are no airport transfers or taxi service to Batesville, IN.

LODGING

The following lodging options are closest to the Hill-Rom Training facility:

Beds & Stretchers

Progressa® Bed (Model P7500, P7520)

All available sleep surfaces (Therapy and Pulmonary) are included, as are the IntelliDrive® feature and the Fifth Wheel. Clinical operation, general theory of operation and troubleshooting are covered. ②

Affinity® 4 Birthing Bed (Model 3701)

Clinical operation, general theory of operation and troubleshooting are covered. ①

CareAssist® Bed (Model P1170) and Advanta™ 2 Bed (Model P1190)

Clinical operation, general theory of operation, and troubleshooting of the bed, as well as the IntelliDrive® feature are covered. ①

VersaCare® Bed System (Model P3200)

All available sleep surfaces (A.I.R. and P500) are included, as well as the IntelliDrive® feature. Clinical operation, general theory of operation, and troubleshooting are covered. ①

TotalCare® Bed System (Model 1900)

All available sleep surfaces (Short Stay Surface, TotalCare® SpO₂RT® Pulmonary Surface, etc.) are included, as are the IntelliDrive® feature and the TotalCare® Bariatric version of the product. Clinical operation, general theory of operation and troubleshooting are covered. ③

Stretcher Training: TranStar® 8000 Series and Hill-Rom® Stretcher 8000 Series (8000, 8005, 8010, 8020, 8030, 8040 & 8050)

Clinical operation, general theory of operation, and troubleshooting of the bed, as well as the Power Drive feature are covered. ①

Centrella® Smart+Bed Training (Model CNT155, CNT255, CNT355)

Clinical operation, general theory of operation and troubleshooting are covered. ①.5

Compella™ Bed Training (Model P7800)

Clinical operation, general theory of operation and troubleshooting are covered. ①

Liko® Lift Technical Training

Liko® Mobile Lifts

Product operation, electrical theory, component removal and replacement, preventive maintenance, periodic inspection and troubleshooting are covered. Products include: Viking® lift series, Golvo® lifts, Sabina® sit-to-stand lifts, Uno® lifts, Liko® M220/M230 lifts, LikoGuard® lifts, Likorall® and Multiral™ overhead lifts, and components to the FreeSpan™ system. ②

Trumpf Medical™ Surgical Products

TruSystem® OR Table (Model TS 7000 U/dV)

Product functionality, theory of operation, hands-on overview of service software and troubleshooting are covered. ①

TruSystem® OR System Table (Model TS 7500 SM, SB, SF)

Product functionality, theory of operation, hands-on overview of service software and troubleshooting are covered. ①

TruLight® Surgical Light (Model TL 3000/TL 5000)

Product functionality, theory of operation, hands-on overview of service software and troubleshooting are covered. ①

iLED® Surgical Light (iLED 3/iLED 5) Product functionality, theory of operation, hands-on overview of service software and troubleshooting are covered. ①

iLED® 7 Surgical Light Product functionality, theory of operation, hands-on overview of service software and troubleshooting are covered. ②

TITAN® OR Table Product functionality, theory of operation, hands-on overview of service software and troubleshooting are covered. ①.5

TruPort® Boom Product functionality, theory of operation, hands-on overview of service software and troubleshooting are covered. ①.5

Welch Allyn® Cardiology Products

ECG Resting Technical Training

ELI 280 Technical Training Basic operation, common troubleshooting techniques, clinical scenarios, device specifications, unit assembly/disassembly for repair, preventive maintenance and safety testing are covered. ①.5

ELI 350 Technical Training Basic operation, common troubleshooting techniques, clinical scenarios, device specifications, unit assembly/disassembly for repair, preventive maintenance and safety testing are covered. ①

ELI 380 Technical Training Basic operation, common troubleshooting techniques, clinical scenarios, device specifications, unit assembly/disassembly for repair, preventive maintenance and safety testing are covered. ①

Cardiac Stress Technical Training Q-Stress 6 and TM55/65 Treadmills

Basic operation, common troubleshooting techniques, clinical scenarios, device specifications, unit assembly/disassembly for repair, preventive maintenance, and safety testing are covered. ①

Q-Stress 6 and TMX428 Treadmills

Basic operation, common troubleshooting techniques, clinical scenarios, device specifications, unit assembly/disassembly for repair, preventive maintenance, and safety testing are covered. ①

Cardiac Monitoring Technical Training

Q-Tel RMS Basic operation, common troubleshooting techniques, clinical scenarios, device specifications, unit assembly/disassembly for repair, preventive maintenance and safety testing are covered. ①.5

- ①.5 Half Day Instructor-Led Course
- ① Full Day Instructor-Led Course
- ①.5 One and Half Day Instructor-Led Course
- ② Two Day Instructor-Led Course
- ③ Three Day Instructor-Led Course
